

Proof of financial climate contribution

Proof-Number: 2025 –3020 – 001EN

Trough the purchasing and retiring Voluntary Emission Reductions (VERs) from projects labelled as **EcoPLUS**, a **voluntary financial climate contribution** is made to **support certified climate protection projects** outside the company's own value chain associated with the energy product.

This climate contribution does not replace measures to avoid or reduce the company's own emissions and does not result in any crediting or offsetting of emissions from the company's own business operations or the product being sold.

Issued for: JUMBO-Textil GmbH & Co. KG,
Stennert 7, 45549 Sprockhövel

On behalf of: AVU Aktiengesellschaft für Versorgungs-Unternehmen

Purpose: Voluntary climate contribution

Retired quantity: 89 t CO₂

For the period from: 01.01.- 31.12.2025

Supported EcoPLUS climate protection project(s)

[Project-ID: 93](#)

[Verified Carbon Standard](#)

The use of the EcoPLUS label does **not improve the environmental impact of the natural gas product**. The Projects are selected in accordance with the EcoPLUS criteria catalogue and are aligned with the United Nations Development Goals (SDGs).

The EcoPLUS project criteria include ecological and social measures in addition to the reduction of CO₂ emissions in the project country. EcoPLUS criteria catalog: www.bd-energy.com/oekoplus-kriterien. Compliance with the EcoPLUS criteria is verified annually by an independent third party (currently TÜV Rheinland (No. 37968)): www.certipedia.com.
